**PRESS**  
RELEASE

**Kaeser achieves Australian Trusted Trader accreditation**

**Kaeser Compressors Australia is proud to announce that it has recently been accredited as an Australian Trusted Trader (ATT) by the Australian Border Force. Amongst a number of benefits, this will expedite the customs clearance process for compressed air equipment arriving in Australia from Kaeser's state-of-the-art production facility in Germany. For the end user this will mean reduced delivery times.**

The Australian Trusted Trader (ATT) programme is a voluntary trade facilitation initiative implemented by the Australian Border Force (ABF). It recognises businesses with a secure supply chain and compliant trade practices, rewarding these accredited businesses with a range of trade facilitation benefits.

Following an audit process with the ABF, Kaeser Compressors Australia has been accredited as an Australian Trusted Trader. This process involved the ABF assessing the security of Kaeser's international supply chain, including internal procedures as well as evaluating the security within Kaeser's premises.

Amongst a number of trade facilitation benefits from being accredited as an Australian Trusted Trader, Kaeser Compressor Australia can now take advantage of priority trade services. This includes advance rulings as well as differentiated examinations at the border - both of which will help to minimise delays to clearance of goods.

Kaeser compressed air equipment remains proudly manufactured in Germany. As an Australian Trusted Trader, being able to expedite the customs clearance process of cargo

KAESER COMPRESSORS Australia Pty Ltd – 45 Zenith Road, Dandenong South, VIC 3175, Australia
