

**THE COMPRESSED AIR
WEBINAR**

THE COMPRESSED AIR WEBINAR

Knowledge is power

For planners, operators and professionals

Introducing the Compressed Air Webinar

To meet the requirements of our current climate, we have re-worked our one-day Compressed Air Seminar into an online course. The Compressed Air Webinar consists of three 90 minute modules, delivered online and over three consecutive weeks.

Like water, gas and electricity - compressed air is an essential utility that many areas of industry rely upon every day. Providing compressed air reliably and efficiently in the required quality is a complex process and requires careful consideration of a compressed air supply system as a whole.

The widest possible knowledge base is therefore required in order to properly assess the various interactions within the system and its integration into the

operational environment.

The Compressed Air Webinar from KAESER Compressors, provides a solid knowledge base for all those involved in the planning, installation, operation and maintenance of compressed air supply systems.

It has also been specifically developed for the Australian industry and suitable for engineers, consultants, operators and supervisors.

Who should attend?

If you are responsible for the planning, installation, operation or maintenance of compressed air supply systems this webinar is for you!

Overview of modules

The Compressed Air Webinar is delivered over three 90 minutes sessions and includes:

Module 1: Compressed air fundamentals & generation

Module 2: Compressed air treatment

Module 3: Regulation, control & cost - effectiveness

Webinar cost per delegate \$149 +gst*

*This includes registration to attend all 3 modules, a copy of the Compressed Air Seminar hardback book and a Certificate of Participation (which may be eligible CPD - Continual Professional Development - hours).

How do I register?

Simply fill in and email to info.australia@kaeser.com the registration form on page 3, or scan the QR code and fill in your registration online.

Registration

Which webinar stream do you wish to join?

- Stream one; 12.30 - 2 pm on Wednesday 12, 19 and 26 May 2021
- Stream two; 12.30 - 2 pm on Wednesday 6, 13 and 20 October 2021

What happens next?

Spaces are limited and will be issued on a first come, first served basis. Once we receive your registration form we will confirm whether a space is available for you. If it is we will send you an invoice. This is payable in full at time of issue.

Once your payment has been received an email will be sent to you with a hyperlink that you can use to join the webinars. Please note our webinars are run through Google Meet.

The hardback copy of the Compressed Air Seminar book and a Certificate of Participation will be posted out to the address supplied in your registration, after you have completed all 3 webinar sessions.

Please note: your booking will only be secured once payment has been successfully processed. No refunds are offered for delegate cancellations.

The world is our home

As one of the world's largest compressed air systems providers and compressor manufacturers, KAESER KOMPRESSOREN is represented throughout the world by a comprehensive network of branches, subsidiary companies and authorised partners.

With innovative products and services, KAESER KOMPRESSOREN's experienced consultants and engineers help customers to enhance their competitive edge by working in close partnership to develop progressive system concepts that continuously push the boundaries of performance and compressed air efficiency. Moreover, the decades of knowledge and expertise from this industry-leading system provider are made available to each and every customer via the KAESER group's global computer network.

These advantages, coupled with KAESER's worldwide service organisation, ensure that every product operates at the peak of its performance at all times and provides maximum availability.

Closer to home, KAESER Compressors Australia - which was established in 1990 - serves the Australian and New Caledonian markets from its 30,000 ft² purpose built factory in Dandenong, Victoria. In addition, KAESER has Sales and Service Centres and a dedicated network of authorised partners strategically located throughout the region.
